

## **New appointments at Holstein UK and CIS**

At their meeting this week, the Board of Holstein UK appointed Greg Watson as Executive Director with immediate effect. Greg's role will be to lead the executive team and enable the organisation to run as efficiently and effectively as possible.

Greg has worked for Holstein UK and its predecessors for almost 26 years, spending most of that time as Company Secretary and Financial Executive. He brings an in-depth knowledge of the workings of a membership organisation owned and run by its members to his new role.

"It's a great honour to have been asked to take on the role of Executive Director", Greg Watson said, "and I look forward both to working with the loyal staff at Holstein UK and to meeting more of the membership at shows and events."

The Cattle Information Service (CIS) also held a board meeting this week at which they confirmed Sue Cope as Executive Director of Cattle Information Services. Sue has been Operations Executive for CIS since 2004 and she now assumes full control for all matters in relation to the company.
